

## **Remote Work Eligibility**

An employee is eligible to request remote work only if ALL conditions hold: at least 6 completed months of service; a performance rating of at least 3.0 on a 1-to-5 scale; and a role that is not designated on-site.

Warehouse operators, delivery drivers, and security officers are on-site roles and are not eligible for remote work.

Analysts and finance associates are not designated on-site roles under this policy.

Exactly 6 months of service and a rating of exactly 3.0 meet the corresponding thresholds.

## **Scheduling and Approval**

Eligible employees may request up to 2 remote-working days per week.

Eligibility does not itself approve a schedule. A manager must approve the proposed remote-working days before the arrangement begins.

Approved remote-working days remain working days and do not consume annual leave.
