

Eligible Claims

Reimbursement applies to documented expenses for approved company business travel.

Attach itemised receipts and submit the claim through the expense portal within 30 calendar days after the trip ends.

Economy-class air travel is the standard reimbursable flight category under this policy.

Advance Approval Threshold

A planned expense above USD 500 requires manager approval before it is incurred.

An expense of exactly USD 500 or less does not require advance manager approval under this threshold rule.

The receipt and business-purpose requirements on page 1 still apply regardless of amount.
