

Requesting Re-evaluation

Submit a re-evaluation request within 7 calendar days after examination results are published.

First complete the re-evaluation form in the examination portal. Then pay the USD 25 fee per paper and attach the payment receipt. Finally submit the completed request.

The request must identify the course, examination date, and paper to be reviewed.

Review Outcomes

The examination office aims to issue the outcome within 10 working days after a complete request is received.

Re-evaluation can increase, decrease, or leave a grade unchanged.

The revised grade is final for this re-evaluation process.
